July 2008 – June 2009

**Department of Parks, Recreation
and Tourism Management**

College of Health, Education, and Human Development

In Memorium

To our friend and colleague

Judith “Judi” E. Voelkl
(1957-2009)

Her laughter and intellect engaged us.
Her courage and spirit inspired us.
We miss her.

Friends and Colleagues of PRTM:

I am pleased to present our 2008-2009 Annual Report depicting the accomplishments of faculty, staff, and students of the Department of Parks, Recreation and Tourism Management. Like most of our sister departments across campus and around the nation, this past year has been a particularly difficult one, given the global economic crisis and its impacts on our budgets, our students and their families. However, my colleagues in the department worked diligently to avoid distractions and rallied at every call to protect the integrity of our curriculum and the welfare of our students. I don't think there has been a year when I have been more proud to be a part of this academic unit.

As you will see as you read through this document, the number and size of grants was our highest in recent history, and our publication record was solid. Additionally, our undergraduate student numbers are stable, our graduate student population is strong and getting stronger and we have the best staff support on campus. Therefore, I am happy to present this compilation of their accomplishments.

Go Tigers,
